Furniture designed for real urban living

feel your city

Travelling the world, we learned that home isn't defined by walls or coordinates, but by a feeling: a pace that matches yours, a corner that feels unmistakably like you.

Inspired by architecture, shapes, colours and the stories written on city streets, we wanted to bring that emotion into the spaces where real life happens.

Sofas and armchairs shaped by memories, crafted for the moments in between.

feel your sofa

Behind every City Sofa piece stands the work of Polish artisans who shape, stitch and refine each detail with care.

We choose materials that age gracefully, hold their form and bring warmth into your home. Nothing rushed, nothing accidental. Just thoughtful design, responsible sourcing and craftsmanship you can rely on day after day.

This is Polish know-how meeting modern design: solid, honest and made to stay with you for years.

Discover our collections inspired by 9 iconic districts. Time to find your vibe.
